REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate the claimed azo dyes of the formula (I), (II) or (III), process for the preparation thereof, method of producing colored plastics, polymeric color particles or color filters therewith, plastics or polymeric color particles colored therewith. The closest prior art compounds are disclosed in Great Britain Patent 1,461,899. The dyes disclosed therein are similar to the claimed azo dyes of the formula (I) but differ in that the 2- and 6-positions of the pyridine radical are substituted with hydroxy groups instead of substituted amino groups. The reference provides no motivation to modify the azo dyes disclosed therein to arrive at the claimed azo dyes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
